

## Table saw ø200mm 800W RD-TS20

Art. number: **054105**

Barcode: **3800123159220**

- ✓ Aluminum ruler for parallel cutting
- ✓ Asynchronous electric motor
- ✓ Dust extraction vent
- ✓ An option for cutting at an angle

### TECHNICAL FEATURES

| Parameter                              | Measure Unit | Value                         |
|--|--------------|-------------------------------|
| Outer disc diameter (mm)               | mm           | 200                           |
| Inner disc diameter (mm)               | mm           | 16                            |
| Cable length (m)                       | m            | 2                             |
| Disc teeth (pcs.)                      | pcs.         | 24                            |
| Maximum cutting depth -90° / 90° (mm)  | mm           | 45                            |
| Maximum no- load speed (min-1)         | min-1        | 2950                          |
| Rated input power (W)                  | W            | 800                           |
| Rated voltage (V)                      | V            | 230                           |
| Size (mm)                              | mm           | 530x350x320                   |
| Rated voltage type                     |              | Corded - Electrical Grid      |
| Maximum cutting depth @ 90° / 45° (mm) | mm           | 45/35                         |
| Material of the table                  |              | Metal With Aluminum Guide Bar |
| Support surface dimensions (mm)        | mm           | 500x335                       |
| Circular saw disc tilt (°)             | °            | 0-45                          |

### EQUIPMENT

|                       |       |
|-----------------------|-------|
| Carbide Disc          | 1 pc. |
| Disc Replacement Tool | 1 pc. |
| Push stick            | 1 pc. |
