

Electric Concrete Vibrator 1300W 3m Ø35mm RD-CV01

Art. number: **078604**

Barcode: **3800972032668**

- ✓ The vibrator is equipped with a 3 meter flexible shaft, which provides considerable freedom of movement and facilitates work in hard-to-reach places. This makes it ideal for compacting concrete in narrow formwork, around reinforcing mesh and in hard-to-reach areas of the construction site
- ✓ The vibrating head with a diameter of 35 mm ensures efficient transmission of vibrations in the concrete mixture, thus achieving optimal results in concrete compaction. This diameter is ideal for most construction jobs and provides deep penetration into the mix for even vibration distribution
- ✓ The RD-CV01 vibrator can be used for a variety of construction tasks - from small concrete slabs to large monolithic structures
- ✓ The high vibration frequency ensures efficient and fast compaction of the concrete. This significantly reduces the risk of voids and air pockets in the finished structure, which improves the strength and durability of the concrete

TECHNICAL FEATURES

| Parameter | Measure Unit | Value |
|--------------------------------|--------------|--------------------------|
| Maximum no- load speed (min-1) | min-1 | 0 - 4300 |
| Rated input power (W) | W | 1300 |
| Rated voltage type | | Corded - Electrical Grid |

LOGISTICS INFORMATION

| Type of package | Quantity | Width Length Height | Volume | Net Brutto Tara | Barcode |
