

Automatic Transfer Switch ATS for 10kW 380V RD-ATS01

Art. number: **090117**

Barcode: **3800972035409**

✓ Supports systems up to 10kW, making it suitable for small and medium-scale installations, such as office premises, small businesses or homes with high electricity consumption

✓ The RD-ATS01 automatically monitors the main source voltage and switches to a backup (such as a generator) when power is lost. After the main power is restored, the device automatically returns to normal operation mode

✓ Ensures seamless switching between power sources, minimizing outage time and protecting critical electrical appliances and systems from damage

✓ The RD-ATS01 is designed for easy and quick integration into existing electrical systems, minimizing the need for additional modifications

TECHNICAL FEATURES

| Parameter | Measure Unit | Value |
|-------------|--------------|---|
| Application | | For automatic switching between main and backup power |
