

## Measuring tape Compact 3x16 TMP

Art. number: **260401**

Barcode: **3800972001411**

- ✓ Possibility of measuring from the back edge of the tape
- ✓ Shockproof housing ABC

### TECHNICAL FEATURES

| Parameter                                  | Measure Unit | Value          |
|--|--------------|----------------|
| Double sided lining                        |              | NO             |
| Belt length (m)                            | m            | 3              |
| Magnet                                     |              | NO             |
| Generation                                 |              | 2nd generation |
| Blade resistance in stretched position (m) | m            | 1.6            |
| Tape width (mm)                            | mm           | 16             |
| Blade coating                              |              | Standard       |
| Accuracy                                   |              | Class 2        |
